MULTI-FLEUR[®]

FUN PROJECTS

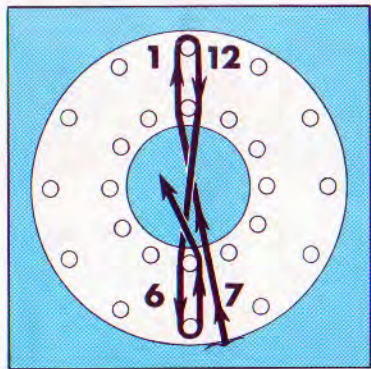

RAIN BONNET - KEY CHAIN — HAIR SPRAY COVER

Many exciting projects (large & small) can be created by using the MULTI-FLEUR LOOM. Included in this package are instructions for use of the Multi-Fleur loom, directions for the projects pictured and a needle.

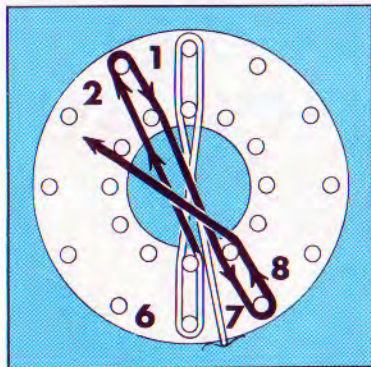

Directions for Basic Flowers

Directions for Basic Flowers

A Holding loom so that space #1 appears at the top, tape end of strand at space #7. Lay strand across loom to space #1, around outer peg to space #12, down to space #6, and around peg to space #7. This completes one loop and should form a "figure eight." Repeat this step two more times around the same pegs for a total of 3 loops.

B With strand at space #7, (working counter clockwise), lay strand across loom to space #2, around peg to space #1, down to space #7 and around peg to space #8. Repeat this step two more times around the same pegs for a total of 3 loops.

Continue stringing up the loom, putting 3 loops on every set of pegs, always moving counter clockwise with each change of position, until strand is at space #6.

Measure off 36 inches on the strand with which you are working, leaving a 36 inch length attached to the flower and tape to side of loom. This will be used later in stitching center of flower.

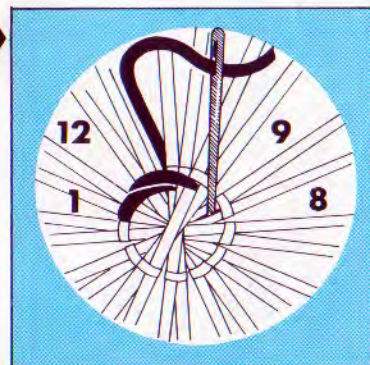

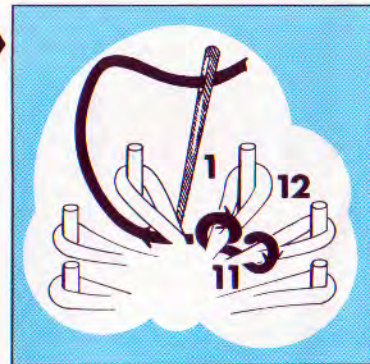

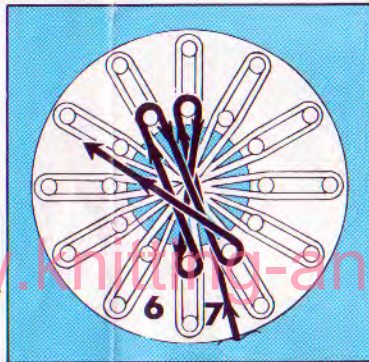

C The center circle of petals is strung on the loom in the same way using the center pegs only (3 loops on each set of pegs). Follow steps A and B. Cut strand from the skein, and tape to side of loom.

*** BASIC SINGLE (SMALL 2 1/8")** Follow steps C, D & E. If using contrasting color for center, follow step C, cut strand and tape to side of loom. Cut 24" of contrasting color, tape to side of loom at space #6 and follow steps D & E to stitch center.

D Thread the 36 inch strand (left on outside row) into a sharp needle (yarn darning 14/18). With strand at space #6, stick needle through to the back through space (Do not pierce strand). Bring needle up through space #12, (pulling tightly against center of flower) and down again at space #11. This stitch will form a bar across the spoke. Again moving counter clockwise, bring needle up in space #1 and down in space #12. Continue this backstitch until every spoke has a crossbar, keeping the stitch firm and as close to center as possible. When circle is completed, strand should be at back of loom in space #10.

E The slanted finishing stitch is worked clockwise. Bring needle up at space #1, count 3 spokes to the right (between spaces #11 and #10), then pierce center of spoke below crossbar, pulling needle through to the back. Bring needle up at space #12 and stitch into spoke between spaces #10 and #9. Bring needle up at space #11 and stitch into spoke between spaces #9 and #8. Complete center in this way,

taking care to keep strand widened out somewhat for best effect. The final two stitches should go under first slanted stitches made instead of through them.

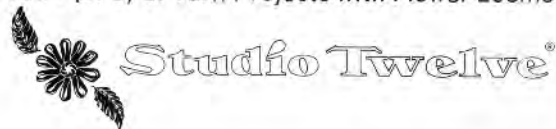

*** BASIC DOUBLE (3 1/2")** Follow steps A through E.

*** BASIC SINGLE (LARGE 3 1/2")** Follow steps A, B, D & E. If using contrasting color for center, follow step A, B, cut strand and tape to side of loom. Cut 24" of contrasting color, tape to side of loom at space #6 and follow steps D & E to stitch center.

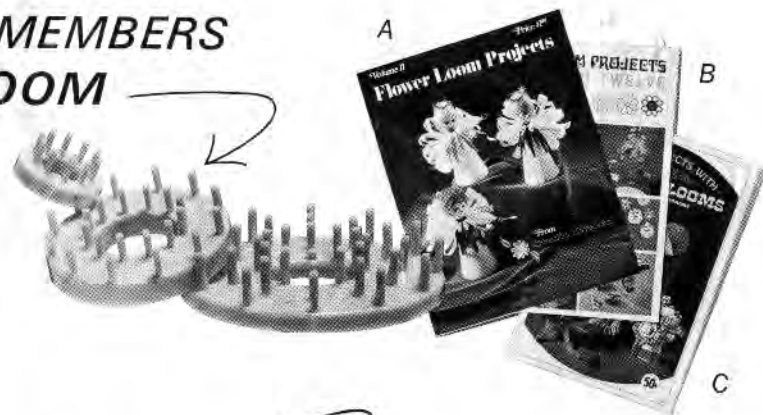

LET US INTRODUCE YOU TO ONE OF THE MEMBERS OF OUR FAMILY—THE MULTI-FLEUR® LOOM

We now have 2 other looms for interesting variations of flowers — MINI-FLEUR and the MAGNI-FLEUR. We also offer many booklets and project kits for wall plaques. The three booklets shown here are A. Flower Loom Projects Vol. II \$1.00, B. Flower Loom Projects Vol. I \$.75, C. Yarn Projects with Flower Looms \$.50.

YARDAGE REQUIRED

BASIC DOUBLE (3½") 7 yards

Hair Spray Cover INSTRUCTIONS

SKILL INVOLVED: Basic double and single flower*

MATERIALS REQUIRED: Multi-Fleur loom, cardboard tube (2¾" diameter, 10" high) colored sisal twine, several colors of straw in harmonizing colors, thick white craft glue.

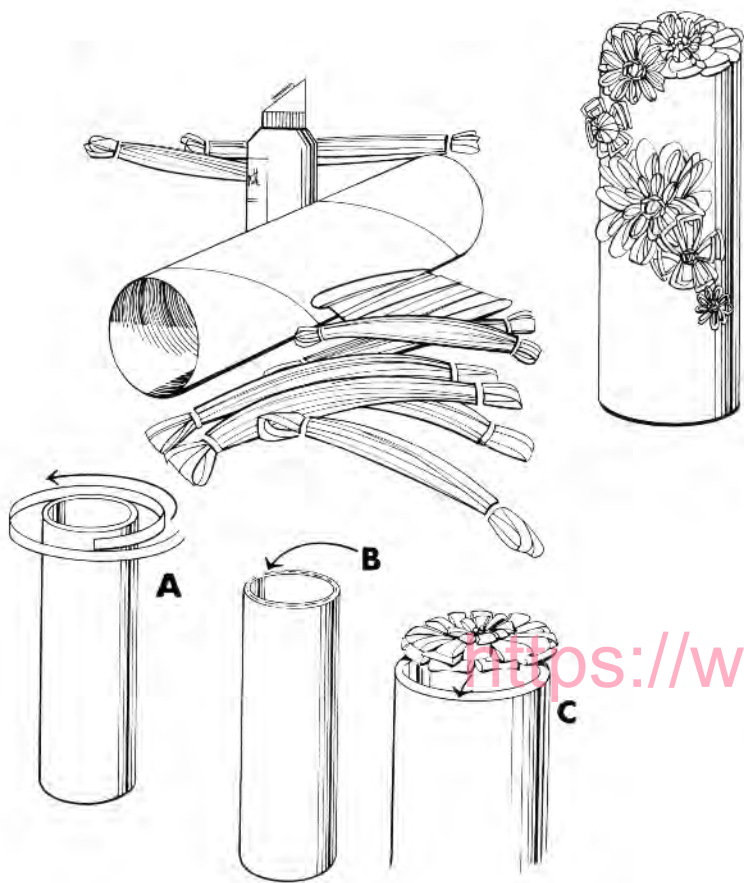

CONSTRUCTION:

- A** Cover cardboard tube with sisal or straw using wet wrap technique, by gluing starting end at top and wrapping sisal around tube. Top closing of tube is made from one double flower with 4 loops of straw on both rows of pegs. Remove flower from loom.
- B** Spread glue around top side of rim at top.
- C** Spread the bottom layer of petals flat and place on top of glue.

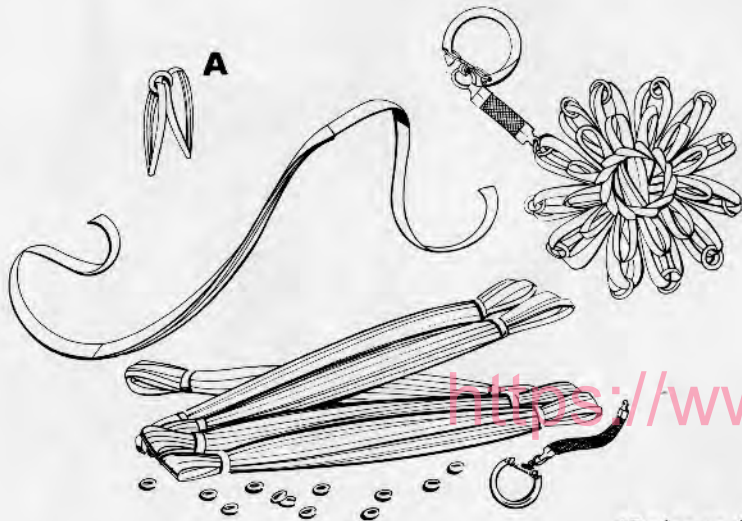

Decorate side of tube with 3 or 4 flowers of varying sizes and styles to give a pleasing effect. If petals are dampened slightly they will shape to curve of the tube. Flowers made on the Mini-Fleur loom will add to possible size variations. If using a tube with larger dimensions use a flower made on the Studio Twelve Magni-Fleur loom for top.

To make squared petals, string fiber around two pegs each time instead of one. Stitch as directed in step D and E.

You will enjoy experimenting with other ways of stringing fiber on loom in geometric patterns. To ensure a firm flower follow stitching procedure in steps D and E.

Rain Bonnet

KEY CHAIN INSTRUCTIONS

SKILL INVOLVED: Basic double flower*

MATERIALS REQUIRED: Multi-Fleur loom, 10 yards of straw, 5 yds. of straw in contrasting color. 12 jump rings $\frac{3}{8}$ " , key chain.

CONSTRUCTION: Make two basic double flowers. Starting with one color make 3 loops on outer pegs. With contrasting color make 3 loops on center pegs. Stitch flower centers with first color and remove from loom.

A Hold flowers together back to back and fasten jump rings through matching petal loops of each flower. Key chain fits through one jump ring.

To use, tuck plastic rain bonnet inside.

*Refer to basic flower instructions on reverse side.
